INTERESTS

Strong interest in technology, financial markets, companies and startups. I regularly follow Spanish and international business and financial news and keep track of developments in financial assets, companies and emerging businesses.

I also enjoy programming and experimenting with new technologies to continuously improve my technical skills.

PROJECTS

Development of web applications and personal software projects, including:

- Home servers and self-hosted services
- Process automation
- Web development
- Small software tools designed to solve practical problems and create value

You can see these projects and more in my [github](#)
